A CHRONOLOGIC RECORD
1891 - 1985

PREFACE

This compilation has been made in recognition of the need for a convenient reference list of the authentic Governmental actions under which the individual National Forests were established, their boundaries subsequently modified, or their status altered. It provides a comprehensive, chronologic list of official actions affecting Federal Forest Reserves and National Forest, and Purchase Units, citing the supporting documents required to trace the legal history of each to September 30, 1985. Land exchanges, donations, and transfers affecting the National Forest boundaries are not cited because of the number of actions and the complexity of assembling accurate data. Many forests are grouped together for administration, but have not been officially consolidated. These changes are not listed here. National Grasslands are not listed here.

The Chronologic Record begins with the Creative Act of March 3, 1891 (26 Stat. 1103; 16 U.S.C. 471). This Act was supplemented by the Act of June 4, 1897 (30 Stat. 34, 35; 16 U.S.C. 475), and by the Weeks Act of March 1, 1911 (36 Stat. 961; 16 U.S.C. 517). The source information was the U.S. Statutes and other published official records of Proclamations, Executive Orders, and Acts of the Congress, such as the Federal Register, together with documents and maps depicting original boundaries and subsequent changes on file in the Division of Engineering, Forest Service, U.S. Department of Agriculture, Washington, D.C. 20250.

Following the Chronologic Record is an alphabetical Name Index that provides reference to the pages on which actions affecting a particular National Forest are cited.
